Text: Don't let flu get you down! Protect your health and keep doing what you love by getting your flu shot for the 2019-20 season. Find a flu clinic near you with vaccinefinder.org. #KansasFightsFlu

Text: Together we can fight flu! Protect yourself and those around you by getting your flu shot. Talk to your doctor or visit the local health department to learn which flu vaccine option is right for you. #KansasFightsFlu

GET YOUR FLU SHOT

#KansasFightsFlu

Prevent the spread of the flu. Protect yourself and those around you!

Text: When you get the flu shot, you're not only protecting yourself – you're preventing the spread of flu and protecting people around you who are vulnerable. The vaccine is the best protection from flu and people 6 months of age and older should get vaccinated every flu season. #KansasFightsFlu

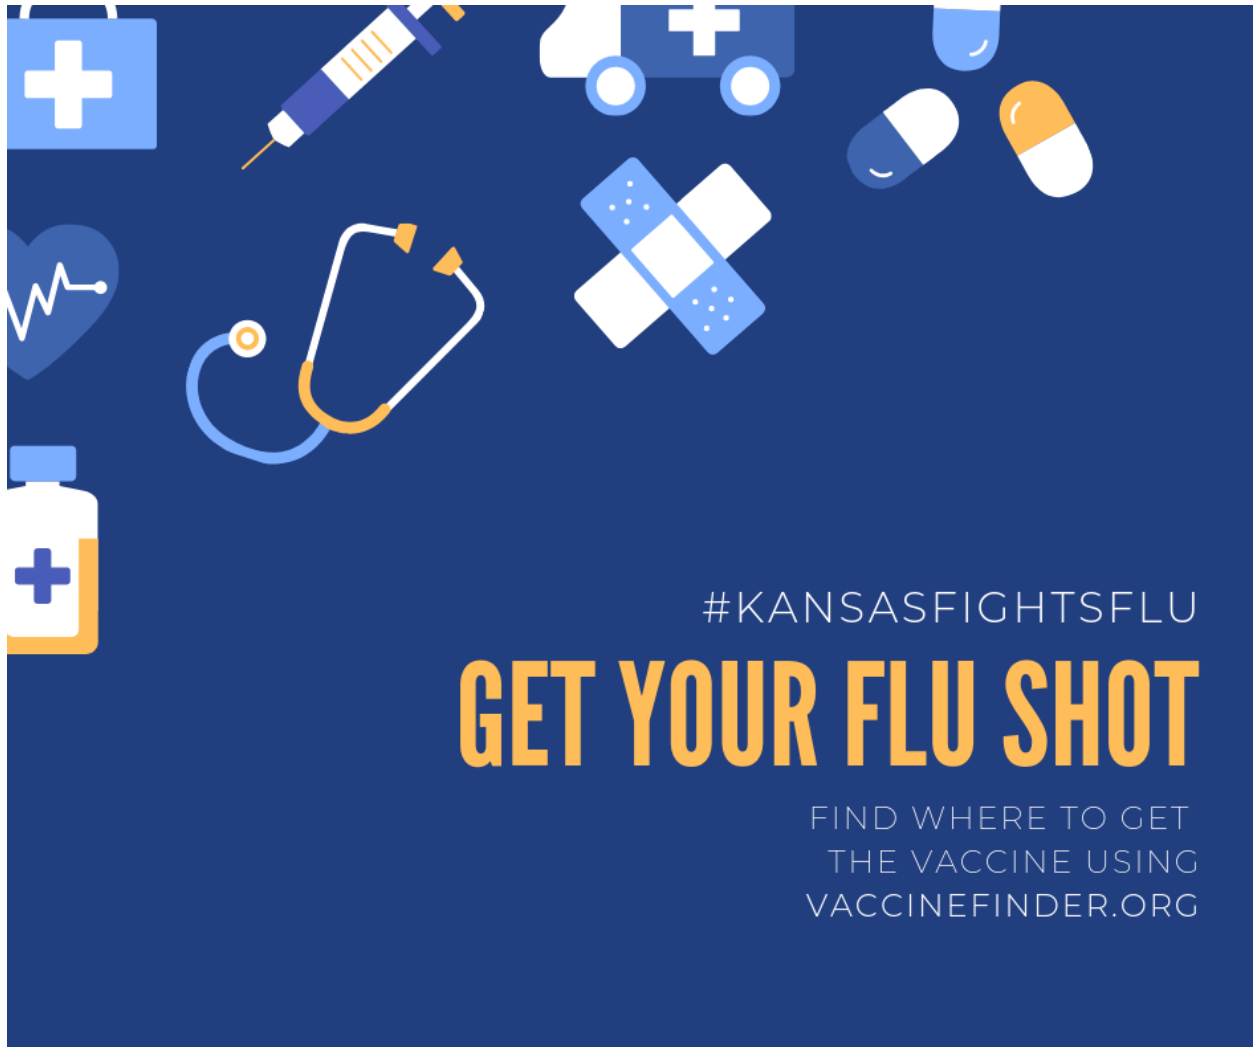

PREVENT THE SPREAD OF
FLU

*Get your
flu shot!*

Text: Maybe it's because you don't want to miss snuggles with your newborn niece who is too young to get the flu shot yet. Maybe it's because your friend is going through cancer treatments and needs to be protected from the flu. Or maybe it's because you simply don't want to be out of commission with the flu this year. There are lots of reasons to get the flu shot – to protect you and the ones you love. #KansasFightsFlu
