survivors, and experts

Vaccinations offered following
presentation

**Thursday
Feb. 25th
6-8 PM**

@ Golden Belt
Cinema 6
1222 Kansas Ave.
Great Bend

Human papillomavirus (HPV) is a common virus- about 1 in 4 people in the U.S. are currently infected. HPV can cause cancers of the throat and mouth, cervical cancer, and others. The HPV vaccine is recommended for boys and girls age 11-12 and any teen that has not yet been vaccinated.

The HPV vaccine is given in 3 shots over an 8 month time span.
