1. Welcome and Introductions

2. **TDAP Toolkit Final Review** - http://www.immunizekansascoalition.org/Tdap-toolkit.asp
   a. **Review changes on "Bundling Language" for providers document**
      i. Is this ready to go?
      ii. Is there a desire to change the language from "bundling" to "announcement" language?
      iii. **Recommendation: Approved, Approved with corrections, or Needs more updates?**

   b. **Bundling Language Tab for Tdap and Meningococcal Vaccine Toolkits** (http://www.immunizekansascoalition.org/Tdap-toolkit-dh.asp) (Note: only Tdap toolkit has an example; when approved, the same tab and information will be put onto the Meningococcal Vaccine toolkit.)
      i. Is this what the team would like to see? Corrections/edits on the definition of bundling language? Any documents/resources to be added or taken down from the tab?
      ii. **Recommendation: Approved, Approved with corrections, or Needs more updates?**

   c. **Announcement/Presumptive Language Tab for HPV Vaccine Toolkit:** On HPV Vaccine toolkit only. This is to reflect that announcement language is really focused on increasing HPV Vaccine rates, whereas bundling language is to increase vaccine rates in general, as Sarah mentioned. (http://www.immunizekansascoalition.org/hpv-resources-dh.asp)
      i. Any corrections/edits for the definition? Any documents/resources that need to be added or taken down from the tab?
