

How to Submit a Winning Silver Syringe Nomination

The Silver Syringe Awards and Fundraiser is the only event in Nevada where healthcare providers and community partners are recognized for their hard work in helping immunize our communities. Immunize Nevada wants to recognize these individuals and company/organizations properly, and the only way we can do that is with your help.

Please submit a meaningful nomination truly highlighting all the good work our friends and colleagues are doing to keep Nevada communities healthy. Below is a list of how to effectively submit a Silver Syringe nomination, so the review committee can get a true feel and insight into the hard work of the nominee.

Steps on How to Submit a Winning Nomination:

- Provide statistics to support your nomination (i.e. did the nominee's immunization rates improve from the previous year? What was the community impact of the nominee?)
- If you provided statistics, what steps did the nominee take to improve rates or other immunization-related activities?
- Provide examples of how the nominee is "thinking outside of the box" to create a healthier community
- What "best practices" is the nominee using to achieve immunization success?
- What extra steps were taken or how did the nominee go above and beyond to get the community immunized?
- Lastly, please be mindful of word count and the deadline of December 14.
