  - Twitter
  - Adolescent Immunization Innovation Awards

## Current Priorities, Emerging Issues

- **HPV Vaccine**
- **Meningococcal Vaccine**
- **Tdap**
- **Bundling, Announcement Training**
- **Influenza Vaccine**
- **Other topics**
  - Immunization of Health Workers
  - Immunization of Child Care Providers
  - WebIZ Utilization
  - Adult Immunizations
  - Engaging Pharmacists as vaccine providers

## Discussion Questions

- **Accomplishments:** What IKC accomplishments are you most proud of? What IKC work to-date has been most effective?
- **Priorities:** Looking ahead to FY19 and beyond, what should our top *priorities* be in order to further the IKC mission of protecting all Kansans against vaccine-preventable diseases? What should be continued? What should change?
- **Activities/Methods:** Looking ahead to FY19 and beyond, what should our key *activities* be? What *methods* should we use to further our mission?
- **Partners/Stakeholders:** Who is missing from the table? What organizations or stakeholders do we need to further engage?

## Highlights of Member Comments from 2/2/18 Meeting

- Accomplishments: Toolkits, legislative events
- Priorities: WebIZ, continued focus on adolescent immunizations, adult vaccines, vaccine safety, vaccine hesitancy
- Partners/stakeholders: Recruit members with expertise on sociology, psychology, or perhaps motivational interviewing
- Recommend thinking about this further and continuing discussion at April meeting
